Evolve with Jeff - Introduces Comprehensive All-in-One Marketing Platform for Digital Content Creators Over 40

July 16, 2026

Minneapolis, Minnesota - July 16, 2026 -
Evolve with Jeff - announces the introduction of a comprehensive digital marketing solution designed specifically for individuals over 40 seeking to establish and grow their online presence. The platform consolidates multiple marketing tools into a single integrated system, addressing the unique challenges faced by mature entrepreneurs entering the digital marketplace.

The new offering combines website building, funnel creation, automation tools, course development capabilities, and content management systems into one unified platform. This integrated approach eliminates the need for multiple software subscriptions and reduces the technical complexity that often prevents individuals from launching their online ventures.

"People over 40 bring incredible life experience and wisdom to the digital space, but they often struggle with managing multiple technical platforms," said Jeff Mork, founder of Evolve with Jeff. "Our platform removes those barriers by providing everything they need in one place, from creating their first YouTube video to building complete sales funnels and managing customer relationships."

The platform addresses a growing market need as more professionals and retirees seek to monetize their expertise through digital channels. Recent industry data indicates that content creators over 40 represent one of the fastest-growing segments in the creator economy, yet they face unique challenges including technology overwhelm and the need to manage multiple software tools.

Evolve with Jeff - All-in-one marketing Platform includes over 105 detailed training modules covering essential topics such as funnel building, artificial intelligence integration, sales strategies, and social media advertising. The system provides unlimited access to websites, funnels, automations, forms, surveys, calendars, pipelines, lead management, and course creation tools. Additionally, users receive three ready-to-sell digital products they can immediately offer for profit.

The platform specifically caters to mature entrepreneurs who want to transform their professional experience into profitable online businesses. Whether creating user-generated content for brands, building YouTube channels, monetizing Instagram accounts, or developing online courses, users access all necessary tools through a single dashboard.

"The traditional approach of piecing together different software solutions creates unnecessary complexity and expense," added Mork. "By consolidating these tools and providing comprehensive training, we enable our members to focus on what matters most - sharing their valuable knowledge and building their businesses."

Support remains a cornerstone of the platform's value proposition. Members gain access to a private community providing round-the-clock assistance, ensuring users receive timely help when encountering technical challenges or strategic questions. This community-driven support model recognizes that many individuals over 40 prefer collaborative learning environments where they can connect with peers facing similar challenges.

Evolve with Jeff specializes in helping individuals over 40 transform their life experiences into successful online businesses. The company provides comprehensive training and tools for YouTube monetization, user-generated content creation, Instagram marketing, and artificial intelligence-powered video production. Through its integrated platform and supportive community, the company empowers mature entrepreneurs to overcome technical barriers and build sustainable digital income streams.
